

## Dr Trish Melton Launches New Additions to the PM Toolkit Series

Following the success of 'Project Management Toolkit' Dr Trish Melton, (founder and Managing Director of Chester based project consultancy firm MIME Solutions Ltd.) announces the expansion of the toolkit into a series of publications.

The second edition of Project Management Toolkit was launched at the IChemE Global Forum event in London on May 16-17 2007. Real Project Planning and Project Benefits Management were released on December 7<sup>th</sup> 2007, and a series of interactive workshops are also scheduled, based around the structure of the books. The first of these events will be held from April 28 - 30, 2008. The series and workshops guide readers/participants through each of the key lifecycle stages that lead to effective project management and introduce a variety of 'tried and tested' unique and generic PM tools and techniques

As a project and business change professional, Trish brings a wealth of experience and enthusiasm together to provide practical guidelines and actual case studies, making these titles suitable both as additional learning/refreshers for practicing Project Managers and as university textbooks.

To the point, brief and entirely practical, the tools presented in the PM Toolkit series provide a route map for project success. The books provide simple and effective resources that deliver valuable PM skills, which will impact positively on the success of the reader's/participant's role and ultimately the bottom line of their organisation.

### Notes for Editors:

1. For further information on the series please visit [www.books.elsevier.com/engineering](http://www.books.elsevier.com/engineering) (PM Toolkit ISBN: 9780750684408), (Real Project Planning ISBN: 9780750684729) and (Project Benefits Management ISBN: 9780750684774). For details on upcoming

workshops please contact MIME Solutions Ltd. on 01829 759272, or e-mail [v.bate@mimesolutions.com](mailto:v.bate@mimesolutions.com)

## 2. About the Author

Trish is a chartered Chemical Engineer, a Fellow of the Institution of Chemical Engineers (IChemE), and founder chair of the IChemE PM Subject Group. She is a part of the Membership Committee which reviews applications for corporate membership and in 2005 was elected to the Board of Trustees. She is an active member of the International Society of Pharmaceutical Engineering (ISPE), founder chair of the PM Community of Practice (PMCOP), and presents on a variety of subjects including project management, quality risk management and lean manufacturing. In 2007 ISPE recognised Trish's achievements when she received an award for 'Outstanding Leadership and Service' related to her work with the PMCOP.

## 3. About MIME Solutions Ltd.

MIME Solutions Ltd was formed in 2003 and aims to provide a more straight forward approach to project management and problem solving. The company provides project and business change management, regulatory and GMP consulting for pharmaceutical, chemical and healthcare clients. Trish uses her PM skills on a daily basis to support the identification of issues for clients and implement appropriate, sustainable solutions. MIME Ltd was recently short-listed in the category of best 'Small Industrial Company of the Year' at the prestigious Best of British Industry Awards held on February 8 2007.
